# WALKS and WAGS<sup>®</sup> TRAINING

## PUPPY TRAINING CLASS

As dog trainers, we work with many dogs who have behavioral issues ranging from destructiveness, to barking, to aggression. The heartbreaking part is that so many behavioral issues can be avoided with proper puppy training and socialization.

This class is for puppies from 8 weeks to 16 weeks. With puppy classes we will be working with pet parents to show them how to better understand what their little one is thinking and how to make socialization and training a fun thing for not just the puppy, but the owner as well.

**First 3 classes FREE, all others \$20.00 each.**

**Neglecting this critical window in a puppy's development is one of the biggest mistakes dog parents make.**

## LEVELS TRAINING

**The most innovative, flexible, and cost effective way to take dog training classes. Take as much or as little training as you want with the flexible schedule you need.**

### **LEVELS TRAINING IS A MEMBERS ONLY PROGRAM.**

Families and their dogs can join one of four types of level's memberships: Bronze (2 months), Silver (4 months), Gold (6 month), or Platinum (1 year). During your period of enrollment, you can attend as much or as little training as you like.

### **BENEFITS OF LEVELS TRAINING OVER TRADITIONAL CLASSES:**

- » All the dogs in each level are at a similar stage in training. This allows instructors to better address the needs of each dog.
- » Work at your own skill level for as long as necessary. No falling behind since there is no requirement to move up.
- » Students can revisit a lower level at any time to brush up on previous skills.
- » Dogs move in and out of each level throughout the training, which provides new dogs as distractions each week.
- » Have extra time in your schedule? Attend more than one session a week, if you are able to do so.

## DOG LANGUAGE CLASS

**Wouldn't it be great to know what your dog was feeling or thinking?**

### **LEARN TO SPEAK DOG**

*For Humans only*

We will help you to understand and learn dog body language. You will be able to access and predict canine behavior. This course is for those who really care about what their dog thinks and feels, and who wants to understand them at a whole new level.
